

# NO CON CON LABOR WALK

Please join the Capital District ALF for a "No Con Con" Labor Walk.

This year we will be knocking on doors across New York to let working men and women know about the Constitutional Convention question and why it's critical that they come out and vote this year against it!

A Constitutional Convention will cost taxpayers millions of dollars in an effort to achieve reforms that can already occur without creating another layer of government.

Meanwhile, the protections we've fought for and won would be in jeopardy. This money would be better invested in our schools, crumbling infrastructure and on vital public services.

**Hope to see you there!**
